

# SAPPHIRE EVENTS

DESIGN PRESENTATION CREATED FOR THE WEDDING CELEBRATION ON  
MARCH 12, 2016

## VISUAL STATEMENT

*A regal affair inviting guests to enjoy a ceremonious and meaningful formal garden party with charming details, traditional flair, and majestic sensibilities. This will be the luxury garden party of our time.*

## RECEPTION: THE DINNER TENT (SEATING AND TABLES)

*B) Two long 24' Exposed tables running the center length of the tent. Each stretch of table will have 18 padded cane back chairs.*

*Three crystal chandeliers will hang over each of the 24' tables from the center beam of the tent. Densely entwined green vines will decorate the base of the chandeliers to enhance the garden feel of the space.*

*Each tabletop will consist of three crystal candelabras with taper candles, as well as 50-60 various height clear textured glass votives, cylinders, and hurricanes. Florals will be in a collection of cut crystal containers down the length of each table filled with white and green flowers using lilac, fritillaria, hydrangea, garden roses, tulips, hyacinths, gardenias, helleborus, stock and other seasonal blooms.*

## RECEPTION: DANCING TENT

The remaining half of the dancing tent will contain two rows of three bar-height communal tables with barstool seating, to facilitate great conversation and an inviting view of the dancefloor action. The dancefloor will have a total of six highboy tables on each side, covered in a natural linen, each with a fragrant floating gardenia in a cut crystal vessel and glowing with three textured clear glass votive candles.

A sample of the chandelier in the dance floor installation is pictured above left.

The communal tables will feature four cubed sections of vertically hanging string lights from the main beam of the tent, to reflect both the black and white floor design as well as the lattice motif throughout the event. Each communal table will be lined with votives in smokey infinity glass paired with a dense channel of white rose petals, with rose heads nestled in the petals, and 20 gardenia blooms down the center of each table.

## RECEPTION: DANCING TENT

*Inspired by the notion of a secret garden party from every touchpoint of the event, the dancing tent reveals itself to be an unexpected and imaginative continuation of the motif with an inverted garden composed of tens of thousands of white tulips suspended upside down over the dancefloor. The center of the installation will feature an oversized, crystal chandelier, and the entire suspension will be enhanced with pin spotting and directional lighting from both overhead and underneath to maximize the impact of this statement piece.*

*Carrying over from the black and white aisle of the Cathedral, the dancefloor will be a large 24' by 24' black and white installation. At the base of the stage will be a 2' floral skirting, featuring a lush display of white florals to cover the underside of the stage and hide electrical and support equipment. Flanking the stage will be two 10' tall boxwood hedges. The band backdrop will be a greenery and floral trellis design, inspired from the 2013 Oscar de la Renta Spring Bridal runway, also serving to carry forward the trellis and French garden motif from other details and elements of the event.*
