# CEREMONY DESIGN:
# ALTAR AND DECOR

The bride and groom will stand in a canopy of lush greenery and white blooms. The arbor will be comprised of trees, bending together to form an archway.

Intricate greenery and blooms will climb the columns down the aisle of Marigny Opera House.

An arch comprised of trees, similar in shape and design to those at the altar will stand at the entrance for a striking first impression as guests enter the ceremony space.

# RECEPTION DESIGN: TABLESCAPE

One long, elegant dining table will span the length of the back hallway.

Tall arrangements comprised of greenery and blooms, mimicking the organic nature of the trees in the ceremony space, will line the center of the table. Sleek gold stands will hold the arrangements tall above the table, while low lush arrangements in mirrored boxes will line the center of the tables.

Option of either black or white LED taper candles in gold holders will span the length of the table.
